With pockets

---

### 8 TABBED DIVIDERS

### LOCKER MIRROR

Kept in the pocket of your band binder for viewing your face as you play.

---

### PENCIL

Keep in your case.

## Timeline

February Meet with the directors to select an instrument.

April Order listed equipment from a local music store.

May Sign up for private lessons if you wish to get a head start. Our teachers are fantastic, and fill up quickly!

June Get excited about starting band!

August 22 First day of school. You will not need to bring your instrument the first day.

August 23 **FIRST DAY TO BRING YOUR INSTRUMENT AND SUPPLIES TO SCHOOL.**  
Please have all materials listed in this packet by this day.

## Should my child start playing before school starts?

Many of our students are interested in starting their instruments over the summer with an approved private instructor. There are two advantages to your child starting during the summer. First, your child will be a little more comfortable with the instrument when school starts. Second, you will already be signed on with a private instructor and will have scheduling priority when the school year begins. Students who take privately once a week during the summer usually get a jump-start that will last several weeks into the school year.

## Private Lesson Program

Private lessons are supplemental to the Cobb Band curriculum. Lessons are not required, but we certainly encourage students to take advantage of the opportunity to study with a specialist on their instruments. Our private instructors are screened for quality and safety and are contracted with the district. You can be assured that your child will receive top-quality private lessons when he or she studies with a private teacher on our list. Lessons are 25-30 minutes once a week for a cost of \$18.00 per lesson. If you have ever paid for piano lessons, you know what a great value this is!

Please do not allow your child to try to teach him or herself, try to learn from a friend or sibling, or take lessons from a non-approved teacher. Students who do these things risk learning bad habits that hinder their progress in band and will ultimately cause them frustration.

Students who have chosen a school-owned instrument (oboe, bassoon, French horn, euphonium, tuba) will have an opportunity to check out an instrument in June if they plan to take summer private lessons.

### Approved Private Instructors:

#### Flute

Dr. Lisa Phillips

607-731-3879

[lisaphillipsflute@gmail.com](mailto:lisaphillipsflute@gmail.com)

#### Bassoon

Andrew Wojciechowski

**Percussion**

Dylan Groff

214-212-8868

[dylangroff@my.unt.edu](mailto:dylangroff@my.unt.edu)

## **Maintenance and Service**

All instruments require occasional service, adjustment, and cleaning. The better your child takes care of his or her instrument, the less time and money you will have to spend on maintenance and repair. Your child's director will provide instruction on proper instrument maintenance and care.

## **Discount Stores**

Some local retail stores have begun to carry inexpensive instruments. These instruments are poor in quality and far below the standards expected for tone quality and construction. Do not purchase an instrument from a discount store.

## **Instruments from Foreign Countries**

Instruments sold in foreign countries are often not built to the same specifications of those commonly used in the United States. In fact, they are often built to a different tuning scale, and therefore, not playable with instruments sold in the U.S. Please purchase only instruments of the make and model listed on the supply list.

## **Third Party Instrument Purchases**

Please have Mrs. Tucker, Ms. Norton, or Mr. Redman inspect any instrument you are considering purchasing through a third party vendor, such as a classified ad, E-Bay, etc.. BEFORE you purchase it.

## Where should I go to get the supplies my child needs for band?

Local music stores are a great place to rent or purchase an instrument and supplies, and usually provide the best ongoing service.
